Am I Too Late?

Verse 1
I had the nightmare again that you met someone
And he was saying to you the things I could never say
You turn and walk to me in front of everyone
And before I speak a word I'm wide awake
I'm wide awake

Verse 2
As sunlight climbs the wall of my empty room
Another day has given way to a lonely night
I lie here thinking if I could just talk to you
Then I just might have a chance to set things right

Pre-Chorus
Cause I'd spend a lifetime here
And I'd overcome my fears
If I could just catch up to you, my dear

Chorus
Or am I too late?
Has everybody come and gone?
Cause the music's off and the lights are on
I've been waiting for so long
But am I too late?

Verse 3
Coming home I pause as I turn the key
Thinking back on days when this place seemed so alive
And open door to find fading memories
I know I'll never get you back if I don't try

Pre-Chorus
But I'd spend a lifetime here
And I'd overcome my fears
If I could just catch up to you, my dear

Chorus
Or am I too late?
Has everybody come and gone?
Cause the music's off and the lights are on
I've been waiting for so long
But am I too late?
Was everybody already here?
In the dream this is right when you appear
But it's just me standing here
Am I too late?

Am I Too Late?

[Bridge instrumental]

Pre-Chorus
And I'd spend a lifetime here
And I'd overcome my fears
If I could just catch up to you, my dear

Chorus
Or am I too late?
Has everybody come and gone?
Cause the music's off and the lights are on
I've been waiting for so long
But am I too late?
Was everybody already here?
In the dream this is right when you appear
But it's just me standing here
Am I too late?
